

Key Vocabulary

inventor	A person who invents things.
transport	Taking or carrying (people or goods) from one place to another by vehicles, aircraft or ship.
evidence	Available information to show something is true.

Great Inventions - Transport

Key Takeaways

The Wright brothers were **inventors** who invented the first successful powered aeroplane called The Flyer.

The Flyer was made from wood and fabric.

Today, planes are made from aluminium and plastic.

Before the railway, the most popular kinds of **transport** were by horse or by water.

We know about history by looking at **evidence**.
