AUTHOR: Mrs Karen Ford (SENDCO)

SEND Code of Practice – Four Areas of Need

The table below outlines **in BLACK** how every school in the St Thomas Catholic Academies Trust (STCAT) identifies, assesses, supports and reviews children with Special Educational Needs and Difficulties (SEND) in line with the SEND code of Practice's Assess / Plan / Do / Review cycle.

Additional assessment methods and intervention available at St Joseph's Catholic Primary School are coloured in RED on the table below.

Please note that referrals to external agencies are completed based on an individual child's needs, in line with the graduated response. A referral does not guarantee that the child will be assessed by the external agency in a timely manner and may not be possible based on the availability of resources.

Communication and Interaction	Cognition and Learning	Social, Emotional and Mental Health	Sensory or Physical Needs
<ul style="list-style-type: none">• Speech language and communication difficulties which make it difficult to make sense of language or communicate effectively• Includes social interaction skills often linked to CYP with an Autistic Spectrum Disorder	<p>Difficulties with</p> <ul style="list-style-type: none">• Understanding the curriculum• Organisation• Memory skill skills• Specific difficulty in a part of learning such as literacy or numeracy• Moderate, Severe, Profound and Multiple learning difficulties (MLD , SLD, PLMD))Specific learning difficulties (SPLD) e.g Dyslexia Dyspraxia Dyscalculia	<ul style="list-style-type: none">• Wide range of social emotional difficulties• Managing relationships• Poor interactions• Behaviours that hinder their own or others learning or impacts on health and wellbeing• Includes ADHD and Attachment disorder a range of mental health issues such as anxiety, self-harming and eating disorders	<ul style="list-style-type: none">• Where children and young people have visual and/or hearing impairments, or a physical need that means they must have additional on-going support and equipment

Communication and Interaction	Cognition and Learning	Social, Emotional and Mental Health	Sensory or Physical Needs
