

In the table below are the National Curriculum times tables end of year expectations for each year group. Children regularly work on their times tables in school but it is important for them to practice at home too.

<b>Year 1</b>	Count in multiples of 2, 5 and 10. Recall and use doubles of all numbers to 10 and corresponding halves.
<b>Year 2</b>	Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers.
<b>Year 3</b>	Recall and use the multiplication and division facts for the 3, 4 and 8 multiplication tables.
<b>Year 4</b>	Recall and use multiplication and division facts for the 6,7,9,11 and 12 multiplication tables.
<b>Year 5</b>	Recall and use multiplication and division facts for multiplication tables up to 12 x 12.
<b>Year 6</b>	Recall and use multiplication and division facts for multiplication tables up to 12 x 12.

At St Joseph's we use TimesTable Rockstars to inspire and motivate the children with their times tables. It is important to practise every week- knowing your times tables is vital when learning more complex mathematical concepts. It is an expectation that children practise their times tables each week for homework, they are then tested once a week in class.
